

Referring Veterinarian Instructions and FAQ's

Where are we located?

- 141-A Main Street, Andover, N.J. 07821 at the smaller facility next to the SonoPath Education Center, across the street from Ride Bike shop.

How do I submit a referral?

- Complete the online referral form at www.sonopath.com/services/vetimaging/ SonoPath Imaging Center will review the client/pet information and supporting documents.

Pricing?

- Email us at Sonopath.imaging@sonopath.com and we will send you a price list.
- Estimate range is based on patient size, cavity and contrast.
- Submit a referral and you will be directed to the price list landing page.
- Questions? Email us at Sonopath.imaging@sonopath.com

Scheduling an appointment: *ALL client scheduling and correspondence are done by us!*

- **SonoPath will contact the owner within 24-72 hours to schedule their appointment and provide an estimate of services.**
- Once we confirm the appointment with the client you will be contacted to set up their pets pre-medications.
- **SonoPath will review the pre-visit appointment instructions with the pet owner.**
- Your client will receive appointment reminders from us with a link to our pre-visit appointment instructions.
- Pets are admitted in the morning and discharged when ready to go home.

What is the referring doctors role?

- Familiarize your client with the above workflow.
- Provide “owners” the appointment instructions.
- Provide the recommended pre-meds AND counsel them on the importance of the pre-medications in reducing their pet’s anxiety and giving them a smoother experience while they are with us.
- **Follow up with your client regarding report results, further treatments and procedures. We do not discuss results with your client, and if they contact us, we refer them back to you.**

What are the pre-medications?

- **Dogs:** Gabapentin 10-20mg/kg combined with Trazodone 5-10mg/kg PO.
- **Cats:** Gabapentin 100mg PO.
- Prescribe medications to be given the evening before the appointment and again 1-2 hours in the morning prior to drop off. It’s OK to give medications in a small “meatball” of food.

When will we receive the reports?

- Within 24-72 hours.
- If it has been over the expected time frame, please contact SonoPath for assistance.

How will we receive the reports?

- When your report is ready, an auto generated email will be sent to the contact email you provided SonoPath.

Questions?

- Email us at Sonopath.imaging@sonopath.com

Thank you for trusting SonoPath Imaging Center with your imaging needs.
